

CE Webinar Portal Instructions

1. Visit the Oral Reconstruction Foundation CE webinar portal by clicking [here](#).
2. To set up an account, click "Sign up now" at the bottom of the page.

A screenshot of the Oral Reconstruction Foundation CE Webinar Portal. At the top, there is a header with the foundation's logo and name. Below the header, the text reads "Sign in or click 'Sign up now' below to access available CE webinars". There are two input fields: "Email" and "Password", both with placeholder text. Below the fields is a blue "Sign in" button. At the bottom left, there is a link "Don't have an account? Sign up now »" where "Sign up now" is highlighted with a red box. At the bottom right, there is a link "Forgot password?".

Medications

SSRI's (Serotonin uptake inhibitors)

Prosac, Paxil, Lexapro, and Celexa

Serotonin functions in bone healing. If take SSRI's Have more serotonin in areas. **this is not good** as now interferes with bone healing.

See good implant placement, implant looks good at second stage surgery, good at crown placement but over time failures. As SSRI's involved in bone remodeling.

Recommendation: Let heal for 6 months, progressively load For 6 months, and consider splinting

9. Once you complete the quiz and receive a passing score of 60% or more, click “Next Module” to fill out the form to receive your Verification of Course Attendance via email. If you do not receive the email within an hour of completing the form, please make sure to check your junk/spam folder.
