

Are you looking for an exciting challenge in a dynamic and diverse environment? At the Oral Reconstruction Foundation, we create and disseminate new knowledge from a trusted source in implant dentistry. Together with our Founding Sponsor BioHorizons CAMLOG we develop and execute innovative science-based programs to become a global leader in oral reconstruction knowledge transfer. We work closely with talented young scientists and practitioners, support projects in the field of basic and applied research, foster scientific exchange between universities and industry, and offer education and continued training worldwide.

To further strengthen our team in Basel we have an immediate opening for a

Manager Science and Education (m/w)

MAJOR RESPONSIBILITIES OF THE POSITION

- Manage existing projects and new scientific education formats including planning, budgeting, implementing, controlling, and reporting
- Project lead for the International Diploma in Implant Dentistry and investigate similar university programs, courses, and fellowship formats
- Contribute to the development of an online platform and establish e-learning modules
- Support communication and marketing activities with professional content and knowledge transfer
- Liaise with Oral Reconstruction Foundation Board members, Founding Sponsor delegates and key opinion leaders
- Cooperate with external vendors

YOUR QUALIFICATIONS AND SKILLS

- MSc in natural/life sciences or medical/dental degree and 5+ years' experience in the MedTech industry
- Experience in the management of projects across teams and cultures
- Ability to take ownership and leadership in areas of responsibility
- Understanding of principles and formats of continuing professional development/continuing medical education
- Reliable and open-minded personality with effective and convincing communication skills for working in a multicultural and diverse international environment
- Fluent in English and German, both verbally and in writing. Additional languages are a plus.
- Willingness to travel internationally up to 20%
- At ease with digital technologies such as Microsoft Office 365, online and professional social media platforms

YOUR PROSPECTS:

- Challenging job in a fast-moving and global environment
- The opportunity to help shape and develop your area of responsibility
- Attractive employment conditions
