## SCHEDULE

## Day 1 • Friday, July 28

7:30am-8:00am	Check-in & Registration
8:00am-9:00am	Hu-Friedy Manufacturing Facility Tour
9:00am-9:45am	Lecture: Peri-implant phenotype. Definition and clinical implications (Dr. Wang)
9:45am-10:00am	Coffee Break
10:00am-10:45am	Lecture: Keratinized mucosa augmentation techniques (Dr. Tavelli)
10:45am-11:30am	<b>Lecture:</b> Mucosal thickness augmentation at implant placement and second stage surgery (Dr. Barootchi)
11:30am-12:15pm	Lecture: Soft tissue grafting for peri-implant diseases (Dr. Wang)
12:15pm-1:00pm	Lunch
1:00pm-5:00pm	<ul> <li>Hands-on: Keratinized mucosa and tissue thickness augmentation</li> <li>Surgical techniques for graft harvesting (free gingival graft, de-epithelialized gingival graft, subepithelial connective tissue graft)</li> <li>Free gingival graft</li> <li>Palatal and buccal strip gingival graft</li> <li>Soft tissue augmentation at immediate implant placement</li> <li>Soft tissue augmentation at second stage</li> <li>Acellular dermal matrices</li> </ul>

## Day 2 • Saturday, July 29

8:30am-9:15am	<b>Lecture:</b> Implant placement in the esthetic zone and considerations for preventing implant esthetic complications (Dr. Wang)
9:15am-10:00am	<b>Lecture:</b> Risk indicators and classification of peri-implant soft tissue dehiscences (Dr. Barootchi)
10:00am-10:30am	Coffee Break
10:30am-12:00pm	Lecture: Treatment of implant esthetic complications (Dr. Tavelli)
12:00pm-1:00pm	Lunch
1:00pm-5:00pm	<ul> <li>Hands-on: Treatment of implant esthetic complications</li> <li>Envelope coronally advanced flap</li> <li>Coronally advanced flap revisited</li> <li>Tunnel techniques</li> <li>Prosthetic-surgical approach</li> <li>Vertical soft tissue augmentation with submerged healing</li> <li>Acellular dermal matrix</li> </ul>
