

SCHEDULE

Day 1 • Friday, October 13

8:00am-8:30am	Check-in & Registration
8:30am-9:30am	Lecture: <i>Gingival Recessions: Etiology, classification, and treatment considerations (Dr. Wang)</i>
9:30am-10:30am	Lecture: <i>The Coronally Advanced Flap with the Autogenous connective tissue graft and non-autogenous matrices, properties, and indications (Dr. Tavelli)</i>
10:30am-11:00am	Coffee Break
11:00am-12:00pm	Lecture: <i>Tunnel techniques, their evolution, and the novel Tunneled Coronally Advanced Flap (TCAF) (Dr. Barootchi)</i>
12:00pm-1:00pm	Lunch
1:00pm-1:15pm	SprintRay Facility Tour
1:15pm-4:00pm	Hands-on: <ul style="list-style-type: none"> • Surgical techniques for graft harvesting (free gingival graft, de-epithelialized gingival graft, subepithelial connective tissue graft, and harvesting from the maxillary tuberosity) • Free gingival graft • Coronally Advanced Flap • Tunnel technique • Tunneled Coronally Advanced Flap (TCAF) • Acellular dermal matrix management
4:00pm-5:00pm	Case discussion and summary of day 1

SCHEDULE

Day 2 • Saturday, October 14

8:30am-9:30am	Lecture: <i>Considerations for implant placement and how to avoid implant biologics and esthetic complications (Dr. Wang)</i>
9:30am-10:30am	Lecture: <i>The Peri-implant soft tissue phenotype and its modification (Dr. Barootchi)</i>
10:30am-11:00am	Coffee Break
11:00am-12:00pm	Lecture: <i>Do Coronally Advanced Flaps and tunnel techniques work equally around dental implants? (Dr. Tavelli)</i>
12:00pm-1:00pm	Lunch
1:00pm-4:00pm	Hands-on: <ul style="list-style-type: none">• Free gingival graft at posterior implant sites• Mucosal thickness augmentation with acellular dermal matrix• Surgical management of implant esthetic complications• Management of the implant-supported crown at implant with esthetic complications• Vertical soft tissue augmentation
4:00pm-5:00pm	Case discussion and summary of day 2
